

Happy Groundhog Day!

A special Groundhog Day greetings from The Woodchuck Den!

It may be snowing and cold during the long winter season, but we never hibernate here at The Woodchuck Den. We have been very busy all winter helping many shooters with their shooting projects - whether it is for wintertime predators or getting ready for the upcoming summertime varmint season.

Yes, old wily Mr. Woodchuck may be napping for now, but it will not be too long and he will be sticking his old nose out of the den deciding what he will eat for supper. In our neck of the woods, he will most likely be gorging himself in some farmers alfalfa field, mowing down his sweet clover or decimating the soybean crop. I don't know about you, but I've been busy this winter getting ready for next varmint season. I've made up some new precision 20 Titan cases and hope to make my longest shot ever on a big old woodchuck. For my short to medium range go to rifle, I am planning to use my 20 VarTarg. When I say medium range, I'm talking about 300 to 400 yards, which is just perfect for the 20 VarTarg. I've got the 39 grain Sierra's shooting very well at a little over 3500 fps. in my 20 VarTarg!

Groundhog hole in farmer's field.

The 20 Titan based on the 6.5 Grendel is a super long-range performer.

I don't know about you, but I can't wait for those long summertime evenings glassing the hayfields with a precision varmint rifle resting on one of our Woodchuck Den Tripods all ready for the perfect shot. Are you ready? Do you have your cases made; neck turned and loaded all ready to go. If not, we can help you get those precision loads ready in real match reloading dies by Redding or Wilson. We have many match-reloading dies in stock and all the match case preparation tools as well. We can even custom form brass for many of the small caliber wildcat cartridges for you. We help thousands of precision-minded shooters every year with their varmint and target shooting needs. Our goal here is not just to sell a shooting product to make your gun fire like most companies, but to

help you achieve ultimate accuracy and precision performance in your rifle or handgun. Give us a call and let's work together to achieve those accuracy goals.

We have deluxe tripods and rear bags in stock!

Again, we stock a wide range of precision loading and cleaning supplies and use every product we stock and sell ourselves. Because of our extreme passion for the small calibers, we have been an industry leader in development and marketing of many successful small calibers.

Happy Groundhog Day, and we look forward to helping you soon!

Todd Kindler
